

## CONTENTS

Introduction .....	6
Biological background to dendrochronology and characteristics of the investigated taxa ....	8
Methodology of dendrochronological research.....	13
Current state of dendrochronological research .....	18
New regional chronologies for the Małopolska region (research sites, local chronologies).....	22
Teleconnection and heteroconnection of regional chronologies .....	66
The impact of climate on the cambium activity and the annual growth width .....	75
Reconstruction of climatic conditions in the Małopolska region on the basis of the chronologies established.....	92
Conclusions.....	109
References.....	113
Streszczenie .....	122
